

Lesson #4
September 24, 2014
Objective: Eliminating Tardies

Name:

Advisory Teacher:

1. List at least 3 ways the student in the video was disruptive as a result of being tardy to class.
2. Does being late to class/school predict future behavior like being late to work? Check out the research on this topic. Google "tardy to class predicts being late to work".
3. Is being tardy a learned behavior (i.e. Is it a choice or does the cosmos/fate/mother nature/whatever decide for you)?
4. If it is a learned behavior, then what does the collective we have to do to unlearn this behavior and replace it with a positive behavior?
5. What does being late to class tell the teacher about that student? What does being late to work tell the boss about that employee?
