

ROBINSON HIGH SCHOOL

"Students of Robinson CUSD#2 schools will have the skills needed to be successful and productive citizens in a constantly changing, diverse world."

2021-2022

REGISTRATION GUIDE

This handbook has been prepared for your use and reference as you plan your high school career. With help from your parents, counselor, and teachers, you will understand credits, learn about graduation and college requirements, and be able to make well-informed decisions when planning your high school education.

CREDITS: 29 CREDITS

1. MINIMUM REQUIREMENTS

- 4 credits in English *Note: All Juniors will be required to take 1 credit of English
- 3 credits in Science
- 3 credits in Math
- 3 credits in Social Studies: students must pass American History and Civics and Economics of the U.S.
- 3 additional credits in core classes (includes English, Math, Science, Social Studies)
- ½ credit in Health Education
- ½ credit in Consumer Education
- One credit in applying Computers
- 2 credits in Fine Arts, Foreign Language, or Vocational Education
- 4 credits in Physical Education

2. PROMOTION, PLACEMENT, AND RETENTION

A student's progress toward graduation and receiving a diploma is determined by completing required coursework and earning the necessary credits. A student is only promoted at the end of the school year when the necessary requirements are met or the student has completed the goals and objectives of an Individualized Education Plan (I.E.P.). It is the student's responsibility to keep in contact with his/her counselor and teachers to ensure that all requirements are being met. Credit in a course will be given upon successful completion of the course.

To be classified by grade, students must have earned the following credits:

- 5 credits to be in grade 10.
- 13 credits to be in grade 11.
- 21 credits to be in grade 12.

3. CREDIT REQUIREMENTS FOR TRANSFERS

	Credits		Credits
FRESHMEN		JUNIOR	
Enroll Semester 2	29	Enroll Semester 1	25
		Enroll Semester 2	24
SOPHOMORE		SENIOR	
Enroll Semester 1	28	Enroll Semester 1	23
Enroll Semester 2	27	Enroll Semester 2	23

4. CREDIT RECOVERY OPTIONS

a. Robinson High School will accept only 2 credits of credit recovery for those students who have a credit deficiency and are in danger of not meeting graduation requirements. Credit recovery classes must be taken through an accredited program and approval must be gained from the Principal or a School Counselor. Fees for these courses are the responsibility of the student and/or their parent. Students will agree to work on credit recovery only at school during activity period and attend two after school sessions each month. Continuous progress must be made in the additional credit recovery courses in order to remain eligible for the supplemental opportunity.

b. When available, summer school classes may be used to achieve a passing grade in a course with a semester grade of 50% or more.

c. Summer school should be attempted to recover credit. Placement in the failed course the following school year is not a guarantee. During the school year because of class sizes, students that are attempting a class for the first time will be given priority.

All graduation requirements must be met before participating in the graduation program.

EXPECTATIONS FOR OFF CAMPUS COURSES:

RHS students that have met the requirements to leave campus are expected to represent themselves and RHS to a high standard. Off-campus courses are a privilege. RHS Administration reserves the right to remove a student from any off-campus course if behavior expectations are not being met or a severe infraction of RHS policy has occurred at RHS or during an off-site class.

Dual Credit Courses Offered at Robinson High School

RHS Course	Corresponds with at LTC	
Mathematics		
Calculus	MTH 1171	Calculus & Analytic Geometry 1
College Algebra	MTH 1102	College Algebra
Trigonometry	MTH 1105	Trigonometry
English		
Composition 1	ENG 1111	Composition 1
Composition & Analysis	ENG 1121	Composition & Analysis
Science		
Advanced Chemistry	CHM 1120	General Chemistry 1
Physics	PHY 1120	General Physics 1
Spanish		
Spanish 1	SPN 1111	Elementary Spanish 1
Spanish 2	SPN 1121	Elementary Spanish 2

Minimum high school course requirements for admission to Illinois public universities:

English: 4 credits

Math: 3-3 ½ credits

Science: 3 credits

Social Studies: 3 credits

Foreign Language: 2 credits are required at most state universities. The University of Illinois at Champaign requires 3 years of foreign language in most departments. The schools of Liberal Arts and Sciences and Commerce and Business Administration require 4 years of foreign language for graduation.

Keep in mind that these are minimum requirements and that each student is responsible for checking with a counselor for the admission requirements of particular institutions. Students who plan to attend a community college before transferring to a four-year university are usually expected to follow these guidelines as well. Students planning to attend a community college for a one-year certificate or a two year applied science degree are not required to follow these requirements.

Please refer to State Universities in Illinois-At-A-Glance or college catalogs for specific admission requirements.

Frequently Asked Questions

Q: What is the 4-Block schedule?

A: Under the 4-Block schedule, students generally take 4 different classes per semester. Longer class periods (83 minutes) allow time for labs, hands on projects, and short field trips.

Q: What kind of classes will I take?

A: Your current teachers will make recommendations for the level of classes you should take as a Freshman in Math, Science, and Social Studies. All Freshmen take English 1.

Q: How do I switch classes?

A: You are only allowed to switch classes during the first three days of a semester. You must bring a note from a parent requesting the change and give it to the School Counselor.

Q: What do high school teachers expect from students?

A: Teachers expect students to be prepared for class by having homework completed and all materials with them for class. They also expect students to be in class every day and to come to class on time.

Q: Is tutoring available?

A: Teachers are available before and after school and during activity period for students to receive extra help. More intensive tutoring can be obtained by contacting the LTC Learning Skills Center.

428 ENGLISH III

Length of course: One semester

01003A000

Credit: 1

Recommended level: 11

Prerequisites: English IIA/IIB with consent of instructor and Administrative approval

COURSE DESCRIPTION

English III is a survey of language arts skills needed to prepare students for communication situations, whether in the world of work or for college. Students will work to improve their reading, writing, vocabulary, grammar, and public speaking skills. An emphasis will be placed on exploring literature and an introduction to basic research skills for pre-college level assignments.

431 APPLIED ENGLISH AND COMMUNICATIONS

Length of course: One semester

01156A000

Credit: 1

Recommended level: 11th – 12th

Prerequisites: Consent of instructor with Administrative approval for Juniors

COURSE DESCRIPTION

Applied English and Communications teaches students communication skills – reading, writing, listening, speaking while concentrating on real world applications. This course emphasizes the practical application of communication as a business tool by using business letters, resumes, and applications as examples rather than emphasize language arts skills as applied to scholarly and literary materials.

443 COMPOSITION I

Length of course: One semester

01103A000

Credit: 1

Recommended level: 12th

LTC DUAL CREDIT (COMPOSITION1)

Prerequisites: B or better in English III and teacher approval for students based on qualifying Accuplacer or college entrance test scores. (recommended for all college bound students)

COURSE DESCRIPTION

College English I is designed to introduce students to various types of general writing required in most first-year college composition courses. Students will learn advanced writing, reading, vocabulary, and presentation skills. This course is recommended for college bound students. Students who earn a C or better may receive LTC Composition I credit.

444 COMPOSITION & ANALYSIS

Length of course: One semester

010053A000

Credit: 1

Recommended level: 12th

LTC DUAL CREDIT (COMP & ANALYSIS)

Prerequisites: C or better in Composition I and teacher approval for students based on qualifying Accuplacer or college entrance test scores.

COURSE DESCRIPTION

College English II is designed to introduce students to analytical writing and research skills required in most first-year college composition courses. Students will learn advanced critical writing, reading, vocabulary, grammar, and presentation skills. An emphasis will be placed on researching and formatting term papers, analyzing and exploring world literature, critiquing print and non-print texts, and using advanced technology in writing and presentation. This course is recommended for college bound students. Students who earn a C or better may receive LTC Composition II credit.

132 TRIGONOMETRY

Length of course: One semester 02103A000 Credit: 1
Recommended level: 11th –12th **LTC Dual Credit**
Prerequisites: C or better in College Algebra and departmental approval
COURSE DESCRIPTION

Course work includes an in-depth study of trigonometric functions, their graphs and properties, identities, equations, and applications of trigonometry.

140 PRE-CALCULUS

Length of course: One semester 02108A000 Credit: 1
Recommended level: 12th
Prerequisites: C or better in College Algebra and Trigonometry and departmental approval

COURSE DESCRIPTION

An advanced study of functions, polar coordinates, complex numbers, probability, vectors, sequences, series and conic sections.

146 CALCULUS

Length of course: One semester 02121A000 Credit: 1
Recommended level: 12th **LTC Dual Credit**
Prerequisites: C or better in Pre-Calculus and departmental approval

COURSE DESCRIPTION

A college level study of calculus including limits, derivatives, integrals, and their applications.

148 CONSUMER MATH

Length of course: One semester 02157A000 Credit: 1
Recommended level: 11th -12th
Prerequisites: Interactive Geometry and departmental approval

COURSE DESCRIPTION

Practical applications of math related to consumers in typical everyday situations. Topics include salaries, insurance, taxes, banking, installment buying, budgets, and projects such as buying a car, costs of living, and other consumer concerns. **This class also fulfills the state Consumer education requirement.**

150 TECHNICAL MATH

Length of course: One semester 02153A000 Credit: 1
Recommended level: 11th- 12th
Prerequisites: C or better in Algebra and Geometry and department approval

COURSE DESCRIPTION

Designed to extend students' proficiencies in mathematics and apply these skills to technical and/or industrial situations and problems. Topics include rational numbers, systems of measurements, geometry, algebra, and statistics. This course covers a wide range of subject areas through real life problems.

233 AMERICAN PROBLEMS

Length of course: One semester

04106A000

Credit: 1

Recommended level: 11th – 12th

Prerequisites: consent of instructor

COURSE DESCRIPTION

An advanced college prep course covering current American issues. Subjects covered include pollution, civil rights, drug education, energy crisis, congress, the presidency and others. Students will be expected to participate each day in class. The grade for this course is based on 50% class participation and 50% research papers/presentations.

235 CIVICS AND ECONOMICS OF THE U.S.

Length of course: One semester

04161A000

Credit: 1

Recommended level: 11th – 12th

Prerequisites: None

Required for U.S. Constitution Test

Examine the general structure and functions of American systems of government, the roles and responsibilities of citizens to participate in the political process, and relationship of the individual to the law and legal system. Study of U.S. economic concepts of supply and demand, pricing structures, budgeting, and banking as well as discussions of current and controversial issues, and other information will be presented in this course.

Completes state requirement for Consumer Education. This class must be passed in order to graduate.

Incorporates state required U.S. Constitution Test.

311 BIOLOGY 1

Length of course: One semester

03051A000

Credit: 1

Recommended level: 9th

Prerequisites: Placement determined by staff

COURSE DESCRIPTION

A lab oriented class dealing with cell structure, DNA/RNA, microbiology, disease, cellular respiration, photosynthesis, and general animal physiology and behavior. Considered as college preparation.

312 BIOLOGY 2

Length of course: One semester

03052A000

Credit: 1

Recommended level: 9th – 12th

Prerequisites: C or better in Biology 1

COURSE DESCRIPTION

A lab oriented class dealing with genetics, biotechnology, evolution, taxonomy and ecology. Considered equivalent to entry level for college.

322 CHEMISTRY 1

Length of course: One semester

03101A000

Credit: 1

Recommended level: 10th – 12th

Prerequisites: C or better in Biology 1 and a C or better in Algebra 1A or Freshman Algebra II

COURSE DESCRIPTION

An introductory lab based course that includes the study of the history and principles of the atomic theory, history and interpretation of the periodic table, nomenclature, bonding, and chemical calculation of mass and energy changes in chemical reactions.

323 CHEMISTRY 2

Length of course: One semester

03149A000

Credit: 1

Recommended level: 10th – 12th

Prerequisites: B or better in Chemistry 1 and C or better in Algebra 2

COURSE DESCRIPTION

Continuation of topics covered in Chemistry I to provide a survey of all general chemistry concepts which include: phases of matter, gas laws, solution chemistry, acid-base chemistry, equilibrium, thermodynamics, kinetics and electrochemistry. This course is lab based and will introduce students to the techniques of titration, calorimetry, chromatography and basic quantitative analysis. Course is designed for college bound students majoring in science or related fields such as pre-med or nursing and involves math calculations similar to those performed in Chemistry I.

324 ADVANCED CHEMISTRY

Length of course: One semester

03102A000

Credit: 1

Recommended level: 11th – 12th

LTC Dual Credit

Prerequisites: B or better in Chemistry 2 and at least a C in College Algebra

COURSE DESCRIPTION

Course focuses on lab based advanced topics including: gas-phase equilibria, acid-base reactions and equilibria, salt hydrolysis and solubility, chemical kinetics, redox reactions and electrochemistry. Designed for college bound students majoring in science or engineering and requires extensive math calculations. Also includes an intensive lab-only section on qualitative analysis. EQUALS LTC GENERAL CHEMISTRY 1 CLASS 1120

328 ANATOMY & PHYSIOLOGY

Length of course: One semester

03053A000

Credit: 1

Recommended level: 10th – 12th

Prerequisites: C or better in Biology 1 and Chemistry 1

COURSE DESCRIPTION

Anatomy and Physiology courses present the human body and biological systems in more detail. In order to understand the structure of the human body and its functions, students learn anatomical terminology, study cells and tissues, explore functional systems (skeletal, muscular, circulatory, respiratory, digestive, reproductive, nervous, and so on), and may dissect mammals.

331 PHYSICS 1

Length of course: One semester

03199A000

Credit: 1

Recommended level: 12th

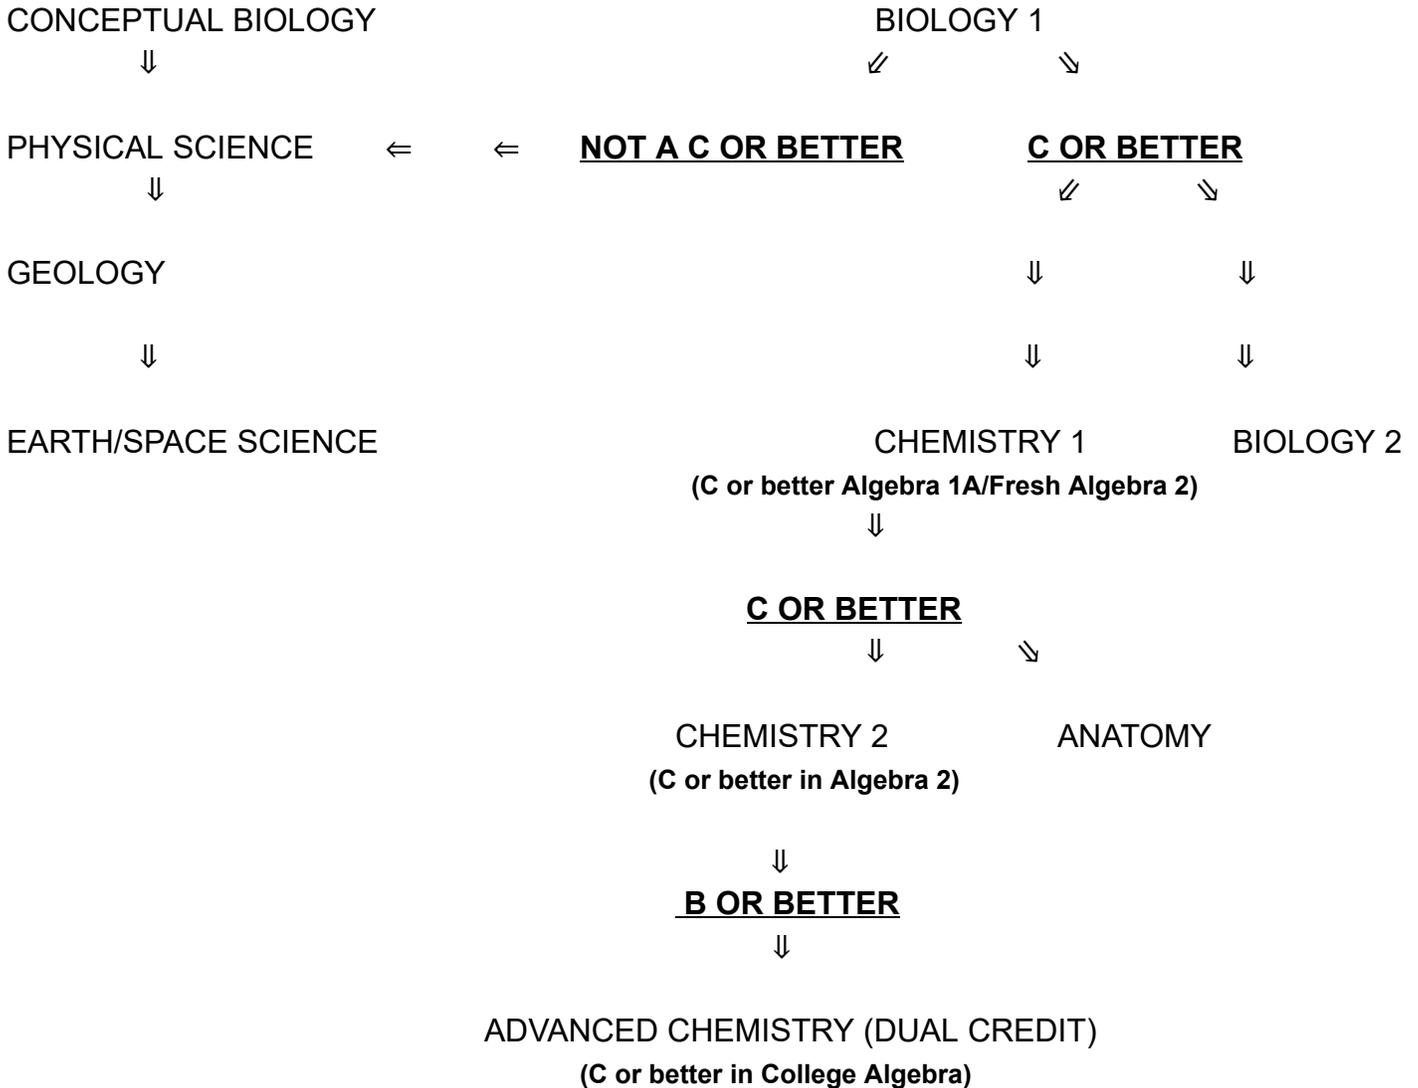

LTC DUAL CREDIT

Prerequisites: C or better in Trigonometry.

COURSE DESCRIPTION

Focuses on basic mechanics – motion forces, vectors, gravitation, momentum, work, energy, simple machines. Discussion and solving advanced problems as a group are important parts of class work. EQUALS LTC PHYSICS 1120

SCIENCE COURSE MAP

Students with a **C or better in Trigonometry** ⇒⇒⇒⇒⇒ PHYSICS (DUAL CREDIT)

- * Freshmen must enroll in either CONCEPTUAL BIOLOGY or BIOLOGY 1, they may choose BIOLOGY 2 as an elective for second semester (after successful completion of BIOLOGY 1)
- *Sophomores should enroll in either PHYSICAL SCIENCE or CHEMISTRY 1, they may choose CHEMISTRY 2 as an elective for second semester (after successful completion of CHEMISTRY 1 and ALGEBRA 2)
- *GEOLOGY and EARTH/SPACE SCIENCE are elective options for all students
- *Students who earn a D or better in CHEMISTRY 1 may NOT take PHYSICAL SCIENCE
- *Students who earn credit for CONCEPTUAL BIOLOGY may NOT take BIOLOGY 1
- *Science requirements listed in BOLD, Math requirements listed in italics.

FOREIGN LANGUAGE DEPARTMENT

SPECIAL NOTES ABOUT FOREIGN LANGUAGE COURSES

The Foreign Language program is designed to help the student gain an understanding and appreciation of another people's way of life, literature, and civilization and to develop an awareness of the relationship between the language and civilization of his own country and that of another country. The mastery of the language is the principal objective – reading and conversing fluently and accurately in a second language. The University of Illinois recommends completing four credits of Foreign Language in high school. Students interested in completing 4 credits need to pursue on-line options or summer classes (when offered) at LTC at student cost.

474 SPANISH 1

475 SPANISH 2

474 SPANISH 1

Length of course: One semester

06101A000

Credit: 1

Recommended level: 11th – 12th

LTC DUAL CREDIT

Prerequisites: C or better in English or consent of instructor

COURSE DESCRIPTION

An introductory course focusing on all aspects of language learning: listening, speaking, reading and writing. Students will be introduced to the Spanish-speaking world and its cultures. Includes special study of "El Dia de los Muertos". Lab work and on-line assignments required and can be completed at home or at school. Creative projects are included, including participation in Fine Arts night. An active participation course.

475 SPANISH 2

Length of course: One semester

06102A000

Credit: 1

Recommended level: 11th – 12th

LTC DUAL CREDIT

Prerequisites: C or better in Spanish 1 or consent of instructor

COURSE DESCRIPTION

Combines fundamental grammar with listening, reading, speaking and writing exercises. Students will be taught pronunciation and intonation acceptable to a native speaker, and will be able to speak and write with increasing accuracy and ease. A stronger emphasis on grammar in this course. Some cultural activities included. Lab work and on-line assignments required and can be completed at home or at school. An active participation course.

office activities. Students will apply proper grammar, punctuation, spelling and proofreading skills. Accuracy will be emphasized. Workplace skills as well as communication skills (thinking, listening, composing, revising, editing, and speaking) will be taught and integrated throughout this course. Comprehensive courses focus on the wide range of factors that influence the flow of goods and services from the producer to the consumer. Topics may include (but are not limited to) market research, the purchasing process, distribution systems, warehouse and inventory control, salesmanship, sales promotions, business management, and entrepreneurship.

*Meets Computer Applications requirement.

504 WEB PAGE AND INTERACTIVE MEDIA DEVELOPMENT I

Length of course: One semester

10201A001

Credit: 1

Recommended level: 10TH – 12TH

Prerequisites: None

COURSE DESCRIPTION

Web Page and Interactive Media Development I is a skill-level course designed to prepare students to plan, design, create and maintain web pages and sites. Students will learn the fundamentals of web page design using HTML, HTML editors, and graphic editors as well as programming tools such as JavaScript. Students will work in a project based environment to create a working website. Students will learn to create pages, add hyperlinks, make tables and frames, create forms, integrate images, and set styles. Students will use image-editing programs to manipulate scanned images, computer graphics, and original artwork. Instruction will include creating graphical headers, interactive menus and buttons, and visually appealing backgrounds. Students will use hardware and software to capture, edit, create, and compress audio and video clips.

GENERAL COURSES

NOTE: Students must pass all classes in order to take community service and/or career training. Also, due to the nature of these courses having students placed with CUSD #2 staff and the public, the administration reserves the right to remove a student at any given time from his/her placement for gross misconduct.

562 CAREER TRAINING

564 CAREER INTERNSHIP

566 STUDENT COMMUNITY SERVICE

562 CAREER TRAINING

Length of course: One semester

22004A000

Credit: 1

Recommended level: 11th – 12h

Prerequisites: Administrative approval, GPA of 2.5, 90% attendance for the preceding semester

COURSE DESCRIPTION

A non-paid training experience in a career field for which the student demonstrates a genuine career awareness and aptitude. Students will be exposed to a variety of on-site work experiences.

564 CAREER INTERNSHIP

Length of course: One semester

22004A000

Credit: 1

Recommended level: 11th – 12h

Prerequisites: Career training and Administrative approval, GPA of 2.5, 90% attendance for the preceding semester

COURSE DESCRIPTION

Upon successful completion of on-the-job training, students will become apprentices at work sites. Students will be expected to be more productive and knowledgeable in their career field.

566 STUDENT COMMUNITY SERVICE

Length of course: One semester

22104A000

Credit: 1

Recommended level: 11th – 12th

Prerequisites: Administrative approval, GPA of 2.0 and on schedule to graduate, 90% attendance for the preceding semester.

This course is offered with Pass/Fail grading. To obtain a Passing grade students must exhibit effort equal to a letter grade of B.

COURSE DESCRIPTION

Offers credit for a well-planned program from participation in “People Related” service to the community. Community service is graded on a pass/fail basis. Students will not be monetarily compensated for the service they perform. Students who do not have a Driver’s License will not be permitted to volunteer off campus. Students must provide their own transportation to and from off campus service. Suggested job sites include: Washington and Lincoln Grade Schools and Nuttall Middle School Robinson High School

611/612 BUILDING TRADES 1

Length of course: One semester

17002A001

Credit: 2 (1 per semester)

Recommended level: 11th - 12th

LTC DUAL CREDIT

Prerequisites: Consent of Instructor Drafting and Woods and Small Engines recommended

COURSE DESCRIPTION

Provides hands on and classroom experiences related to the construction, installation and maintenance of residential buildings. Planned learning activities will allow students to become knowledgeable of fundamentals, principles and methods, and to develop technical skills related to masonry, carpenter and finish work. Includes safety principles and practices, recognition of materials, foundation layout methods, building concepts and procedures, local, state and national codes, cost estimates and blueprint reading, and drafting. Basic principles of theater set design and building.

613/614 BUILDING TRADES 2

Length of course: One semester

17002A002

Credit: 2 (1 per semester)

Recommended level: 12th

LTC DUAL CREDIT

Prerequisites: Building Trades 1 and Consent of Instructor

COURSE DESCRIPTION

Provides hands on and classroom experiences related to the construction, installation and maintenance of residential building. Planned learning activities will allow students to become more familiar with advanced skills than those provided in Building Trades 1. Includes safety principles and practices, principles and practices of plumbing, HVAC, and electrical systems. Specialized skills in masonry, rough and finish carpentry, advanced principles of theater set design and building.

619/620 AUTO MECHANICS 1

Length of course: One semester

20104A001

Credit: 2

Recommended level: 11th - 12th

(1 credit per semester)

Prerequisites: Consent of Instructor with Small Engines and Electricity recommended

COURSE DESCRIPTION

Auto skill development is an introductory course designed to acquaint the student with various aspects of auto mechanics. Skill development in relation to proper use of tools, equipment, safety, and repair techniques will be emphasized.

621/622 AUTO MECHANICS 2

Length of course: One semester

20104A002

Credit: 2

Recommended level: 12th

(1 credit per semester)

Prerequisites: Auto Mechanics 1

COURSE DESCRIPTION

An introduction to the cranking, charging, ignition, and electrical accessory systems of the automobile. Laboratory experience in testing and servicing automotive electrical systems. Two classroom hours per week. Four lab hours per week.

640 TECHNOLOGY 1

Length of course: One semester

21052A002

Credit: 1

Recommended level: 9th - 10th

Prerequisites: None

COURSE DESCRIPTION

This course is designed to give the students some insight into the various and numerous areas of industrial technology and to provide hands-on applied experiences in these areas. Instruction is delivered through the use of Modular Technology Education. Students work in pairs on multiple learning stations. The students rotate through a series of 6 to 8 modular during this course. Modular will include CAD/CAM Mill/CAM Lathe, Digital Imagery, Mechanical Drafting, Plastic Technology, Graphic Design, Robotics, Engineering structures, Residential Plumbing, Residential Construction, Electronics, Laser Communications, Research and Design, Vinyl Sign Making, Fluid Power, Electricity, Precision Measurement, Material Science, Industrial Electricity & Electronics, Engineering Design, Master Cam, Industrial Electronics and Electricity and Industrial Pneumatics.

642 INTRODUCTION TO WOODWORKING I

Length of course: One semester

17007A003

Credit: 1

Recommended level: 9th - 12th

Prerequisites: SolidWorks (Beginning Drafting or Technology 1 completion of the SolidWorks Engineering Design station)

COURSE DESCRIPTION

This is a beginning woodworking course that is designed for students interested in developing woodworking skill for a profession or a hobby in woodworking. Proper procedures in construction are realized by designing and building projects including the proper shop safety, use of different joinery, gluing, sanding and finishing techniques. Students will read and apply instructions and execute measurements for proper construction, a foundation skill in any STEM field. Instruction in care, use, and operation of hand tools and power machines is also a vital part of this course. Students will compose a well written design portfolio, plan of procedure, successfully complete a bill of material, sketches and SolidWorks drawings for each project.

712/713 CARE AND LEARNING SERVICES OCCUPATIONS

Length of course: One class each semester 19054A001 Credit: 2
Recommended level: 10th - 12th
Prerequisites: Child Development or consent of instructor

COURSE DESCRIPTION

Designed to provide students interested in a career in child and day care operations with information and practical experiences needed for the development of job-related competencies. Students will be provided laboratory experiences either in a school-based or extended campus facility. Students will be expected to develop appropriate skills in program development and in assisting with children and/or adult's activities. Classroom study is concerned with the philosophy and management of childcare centers and the state and local regulations governing care-giving operations. The main learning experiences will involve actual work with children/adults in situations that simulate those found in business and industry, as well as preparation for that activity. Due to the nature of this course, daily attendance is required. NOTE: The Illinois Eastern Community Colleges recognize this course as an articulated course leading to a certificate program or the Applied Science Degree. May not be taken concurrently with 714/715. Students in this course will work toward the Early Childhood Education Credential Level 1 as recognized in daycares across the state of Illinois. In order to obtain the ECE credential, students must take the year long class for Childcare 1 and 2.

714/715 CARE AND LEARNING SERVICES MANAGEMENT

Length of course: One class each semester 19055A001 Credit: 2
Recommended level: 11th - 12th
Prerequisites: Care and Learning Services Occupations

COURSE DESCRIPTION

Continues the learning begun in Care and Learning Services Occupations. Emphasis is more on the administration of the care facility. Caring for infants and special needs of children and/or older adults is included. Emphasis is placed on career opportunities, human relations, communication skills and the service needs of clients in the occupational area. Major learning experiences will involve actual work with children and/or adults in facilities that simulate those found in industry, and discussion of the learning and problems arising from that activity. May not be taken concurrently with 712/713. Upon completion of this course, students will obtain the Early Childhood Education level 1 credentials. Due to the nature of this course, daily attendance is required.

716 FOOD AND NUTRITION

Length of course: One semester 16054A001 Credit: 1
Recommended level: 11th - 12th
Prerequisites: None

COURSE DESCRIPTION

Class and laboratory experience needed to develop a knowledge and understanding of culinary principles and nutrition for people of all ages. Course content encompasses: food service and preparation management using the decision making process; meeting basic needs by applying nutrition concepts; meeting health, safety, and sanitation requirements; maximizing resources when planning/preparing/preserving/serving food; applying hospitality skills, analyzing nutritional needs in relation to change. The course also utilizes a variety of project-based experiences and service learning opportunities to gain knowledge and expertise in understanding and applying management skills, with consideration to diverse social, economic, technological, environmental, and cultural characteristics of individuals and families.

720 CULINARY OCCUPATIONS 1

Length of course: One semester

14002A002

Credit: 1

Recommended level: 12th

Prerequisites: B or better in Food and Nutrition, 18 years old before the end of the semester, no more than 8 absences in the prior semester, and instructor approval

COURSE DESCRIPTION

This course provides terminology, culinary math, and practical experiences needed for the development of culinary competencies and workplace skills. Serv Safe safety and sanitation instruction and classroom application will prepare students for an industry recognized sanitation exam. Classroom experiences will develop skills to work in the front of the house, back of the house, and work stations. All labs will focus on baking and pastry arts. Additional content may include: event planning, customer service and relations, food service styles, hors d'oeuvres, and breakfast cookery.

HEALTH OCCUPATIONS

730 ORIENTATION TO HEALTH OCCUPATIONS

734/735 NURSING ASSISTANT 1 **TB TEST REQUIRED FOR THIS CLASS**

730 ORIENTATION TO HEALTH OCCUPATIONS

Length of course: One semester

14001A001

Credit: 1

Recommended level: 9th - 10th

Prerequisites: None

COURSE DESCRIPTION

Designed to introduce Freshmen and Sophomores to the many health careers, and serve as a foundation for progression into Health Occupations skill development. Employability skills will be introduced as well as desirable qualities of health care workers. American Red Cross Safety and First Aid training, and CPR certification will be completed. Skills needed to accurately take blood pressure, pulse, and respirations will also be presented.

734/735 NURSING ASSISTANT 1

Length of course: Two semesters

14051A001

Credit: 2

Recommended level: 11th - 12th

TB TEST REQUIRED FOR THIS CLASS

Prerequisites: Orientation to Health Occupations recommended

COURSE DESCRIPTION

The course is composed of a combination of subject matter and experiences designed to perform tasks of individuals receiving nursing services. The student learns those competencies needed to perform as a nurse assistant under the direction of the registered nurse. The units of instruction should include the role of the nurse assistant while covering general health care topics; medical terminology; patients/clients and their environment; special feeding techniques; psychological support and, in long-term and terminal illness, death and dying. Topics covered typically include normal growth and development; feeding, transporting patients, hygiene, and disease prevention; basic pharmacology; first aid and CPR; observe ring and reports; care of equipment, and supplies; doctor, nurse, and patient relationships and roles; procedure and policies; medical and professional ethics; and care of various kinds of patients. Each student may obtain certification in CPR and as a Nurse Assistant by the Illinois Department of Public Health.

ART DEPARTMENT

763 Art 1
765 Art 2

767 Art 3
769 Art 4

763 ART 1

Length of course: One semester
Recommended level: 9th – 12th
Prerequisites: None

05154A000

Credit: 1

COURSE DESCRIPTION

Introductory class to all aspects of visual art, developing an awareness of design through observation, study, and creation. Hands on course with activities in clay, collage, drawing, cartoons, scratch-board, color, painting and crafts. Also includes art history and research.

Open to advanced art students. Grade will be determined by portfolio work, sketchbook, attitude and self motivation. Student will work under contract. Participation in fine arts night is required.

P.E./HEALTH DEPARTMENT

- 803F Personal Fitness/Colorguard
- 804 Personal Fitness Health/Driver Ed
- 809 Personal Fitness
- 830 Health
- 851 Driver Education

803F PERSONAL FITNESS COLORGUARD

Length of course: One Quarter 08001A000 Credit: ½
Recommended level: 9th – 12th PER QUARTER
Prerequisites: Only for members of Marching Band Colorguard

COURSE DESCRIPTION

Taken during the opposite quarter of Marching Band. Emphasis on lifetime fitness, striving to reach and maintain a healthy lifestyle for all students. Activities include weight training, aerobic training, walking, and team sports.

804 PERSONAL FITNESS HEALTH/DRIVER ED

Length of course: One Quarter 08001A000 Credit: ¼
Recommended level: 9th – 12th
Prerequisites: Must be enrolled in Driver Ed

COURSE DESCRIPTION

Taken during the opposite quarter of Health and during the quarter the student takes Driver Ed. Will alternate with Driver Ed on a daily basis. Emphasis on lifetime fitness, striving to reach and maintain a healthy lifestyle for all students. Activities include weight training, aerobic training, walking, and team sports.

809 PERSONAL FITNESS

Length of course: One Semester 08001A000 Credit: 1
Recommended level: 9th – 12th
Prerequisites: None

COURSE DESCRIPTION

Emphasizes lifetime fitness, striving to reach and maintain a healthy lifestyle for all students. Activities include weight training, aerobic training, walking, and team sports. All students who meet the requirements will receive their CPR and AED certification.

830 HEALTH

Length of course: One Quarter 08051A000 Credit: ½
Recommended level: 9th – 10th
Prerequisites: None

COURSE DESCRIPTION

Covers many aspects of health in general. Areas of study include communicable diseases, non-communicable diseases, human sexuality, alcohol, tobacco and drug abuse, mental, emotional health and anatomy. 851 DRIVER EDUCATION

Length of course: One quarter

08152A000

Credit: ¼

Recommended level: 9th – 12th

Prerequisites: Student must be 14 before start of class.

COURSE DESCRIPTION

Consists of two phases, classroom and behind-the-wheel. Classroom stresses the rules of the road, car control and maneuvers, strategies for town, highway and 4 lane highway. Behind-the-wheel consists of actual driving lessons with an instructor. Class meets the required Illinois law of 30 classroom hours and 6 hours of behind-the-wheel driving, passing both is mandatory for students under 18 years of age to get an Illinois Driver's License. Classroom portion is completed during the opposite quarter of Health and during the quarter PE Health/Driver Ed is taken. Behind-the-wheel driving will be taken during the summer.

Driver Education fees: \$100 for all in-district students covers classroom and behind the wheel instruction.

ACTIVITIES AT ROBINSON HIGH SCHOOL

ATHLETICS

BASEBALL, BOYS

Competition is held at the Varsity and Freshmen/Sophomore levels. A strong schedule is played at both levels, including participation in the LIC Conference. Team concepts of play, dedication, poise and school pride are emphasized to each participant.

BASKETBALL, BOYS

A conditioning (weight training) phase for any boy not out for a fall sport is run during September and October three days a week. This activity runs from November through February with approximately 18 games and 2 tournaments in the Varsity level. There are 3 levels of participation; Varsity, Junior Varsity, Sophomore/Freshmen. There are tournaments for the Freshmen and Sophomore levels in addition to their schedules. A spring and summer program consisting of weight training and skills development through open gyms will also be available.

BASKETBALL, GIRLS

A conditioning (weight training) phase for any girl not out for a fall sport is run during September and October three days a week. This activity runs from November through February with approximately 18 games and 2 tournaments in the Varsity level. There are 2 levels of participation; Varsity, Junior Varsity. There is a tournament for the Freshmen in addition to their schedule. A spring and summer program consisting of skills development through open gyms and weight training with camps also available.

CHEERLEADERS, JUNIOR VARSITY AND VARSITY

Cheerleaders will be elected through a tryout procedure. All candidates must have a C average and written consent of their parent/guardian to try out. Judges include past and present RHS cheer coaches, cheerleaders, coaches from other schools, and other individuals with knowledge in cheerleading. An alternate may be chosen to fill the spot of any girl who cannot perform for an extended period of time during the year.

CROSS COUNTRY, BOYS AND GIRLS

Meets begin September 1 and continue through the state regional the end of October. There are 14 meets in a season and every team member gets to compete in all dual and triangular meets. The course length for boys and girls is between 2.75 and 3.0 miles in a meet. Practices are held on the streets of Robinson, on the cross-country course behind the middle school, and on the track. Come join us-the few, the proud, the Maroon Cross Country Team.

FOOTBALL, BOYS

We have two levels of competition (teams) a Freshman/Sophomore team and a Varsity team. In our program, we emphasize teamwork, organization, discipline and participation. We carry a full schedule of games at each level of competition. This is a great way to get involved and represent RHS.

GOLF, BOYS AND GIRLS

Practice and matches are played at the beautiful Quail Creek Country Club. Enjoy the competitiveness and atmosphere of this challenging course and be able to play other area golf courses.

SOFTBALL, GIRLS

Softball at RHS is an exciting and competitive spring sport. We compete in the LIC Conference providing many talented opponents. RHS Lady Maroons host a very competitive invitational tournament each spring. RHS home games are played at the Robinson Girls' Softball Diamond at the Robinson City Park. Competition is held at both Varsity and Junior Varsity level.

TENNIS, BOYS

This sport is held in the spring of the school year. There is a full schedule of matches including 3 tournaments. A tennis match consists of 6 single and 3 double entries. There is a conditioning phase that is done on an individual basis during the month of February. This is a great lifetime sport at RHS and all students are encouraged to participate.

TENNIS, GIRLS

Girls tennis is a challenging and rewarding lifetime sport at RHS but is growing rapidly. The team is open to all interested girls, Freshmen through Seniors. There is a full varsity and schedule and a partial Fresh/Soph schedule.

TRACK & FIELD, BOYS

There are 18 different events to choose from, 6 field events, 4 relays, 2 hurdle races, and running events from the 100 meter up to the 3200 meter run. There are about 18 meets in the season with several Fresh-Soph meets for underclassmen. Members get to compete in all dual-triangular meets both at home and away. All students are encouraged to participate.

TRACK & FIELD, GIRLS

The girls have 12 individual events and 5 relays in which to compete. Each girl is asked to set a season goal for herself the first day she comes to practice and several hope to set a personal record the season in one or more of the events in which she participates.

VOLLEYBALL, GIRLS

Volleyball starts in August and runs through October. The team has open gyms and weight training in the off season. We play in the LIC Conference and also in three tournaments. Three levels of play are offered including Freshman, Junior Varsity and Varsity.

WRESTLING

The sport of Wrestling is geared for individuals of all sizes and ages to be able to participate. Fourteen weight classes range from 103 pounds to 275 pounds. Competition is offered for Fr/Soph as well as Varsity.

ORGANIZATIONS

AUTO CLUB

The Auto Club is an informal organization open to auto mechanics students and any other interested persons. The students of the club are sponsoring field trips and educational activities in addition to the regular class lessons.

BETA CLUB

The Robinson High School Beta Club is an academic honor and service club affiliated with the National Beta Club. Membership is limited to Sophomores who have achieved a 4.0 GPA and Juniors and Seniors who have achieved a 3.50 GPA and maintain that average. Activities of the club include a formal induction as well as sponsoring a Red Cross blood drive, attending the state convention, and other social and service activities.

FUTURE BUSINESS LEADERS OF AMERICA - FBLA

The Future Business Leaders of America (FBLA) is organized for those students with an interest in business. FBLA is a national organization which strives to bring business and education together in a positive working relationship through innovative leadership and career development programs. Activities of the club include informal elections as well as sponsoring a March of Dimes drive, attending the local and state conference, and other social service activities.

DRAMA CLUB

The RHS Drama Club is organized for those students with an interest in any production aspect of music/theater. The club's goal is to cast and produce a musical play in the winter with added productions throughout the year a possibility. Any student who is interested in acting, lighting, set design and construction, make-up, or pit musician is encouraged to get involved in Drama Club.

FELLOWSHIP OF CHRISTIAN ATHLETES

FCA is a non-denominational group of Christian athletes who meet every 2 weeks. Meetings are approximately 1 hour in length and are usually student led. Topics for discussion are selected by the students. Meetings are held in various locations including local churches and student's homes.

FCCLA

Formerly known as the Future Homemakers of America, FCCLA is a Home Economics related club. We are a State and National affiliated club with headquarters in Washington, D.C. Requirement for membership is to have had, or be presently enrolled in a Home Economics course. The officers help to set club goals for the year and recommend activities to the membership for approval. Activities include: decorating for school functions, offering babysitting services, sponsoring a Christmas party for children, Secret Santa, field trips to Indianapolis and Holiday World and fundraisers.

INTERACT CLUB

Interact is a service organization affiliated with the Robinson Rotary club. Interact is open to juniors and seniors meeting the specific requirements of grade point average and leadership qualities. All eligible students with the specific qualifications are invited to join and are inducted during the spring semester. Interact works with many service projects for the school, community, and world.

INTERNATIONAL CLUB

The International Club organizes programs, parties, field trips, and other special events that are designed to enrich the student's knowledge of International languages and cultures. Meetings are held during Activity period and any student enrolled in Spanish or French or any other foreign language or has completed one year of foreign language is encouraged to become a club member.

KEY CLUB

Key Club is a service organization affiliated with the Robinson Kiwanis Club. It is a student-led club that develops great leadership skills and participates in many worthwhile community service programs and fund-raising campaigns for charity. Any community minded high school student may join.

LIBRARY FORUM

The RHS Library Forum is a supportive community of readers and writers among Robinson High School students. What makes us different from other high school extracurricular clubs is the use of online discussion boards to share poetry, short stories, book reviews, thoughts, and opinions. We have on-campus meetings about once a month. There are no membership fees and no fundraisers. Participate as much or as little as your busy schedule allows. Any RHS student who is interested in literature, learning, and fun is welcome to join during membership enrollment dates.

MATH TEAM

Math Team is composed of students chosen by the math department to participate in academic competition. Math Team is comprised of 10 different teams. Beginning in December, each team meets 1-2 hours per week, usually after school. Regional contest is in February at Eastern Illinois University and State contest is in April or May at Illinois State University.

NEWS 'N EVERYTHING

News 'N Everything, the school newspaper of Robinson High School, is written, edited and published by RHS students. The newspaper is entirely produced by computer in the RHS journalism laboratory. General requirements for any position are dependability, ability to talk to people, writing, computer skills, filing, photography or art.

ROBINILLO

The ROBINILLO staff is responsible for publishing the school yearbook. Various skills including computer design, event photography, edit photography, story writing, ad sales, creative development and administrative skills are needed by individual staff members to produce the publication. The yearbook is a year-long commitment. Out of school work sessions are a requirement for maintaining membership. Application should be made through the advisor during the spring semester to be eligible for the following school years' staff.

SAFE ALLIANCE

Safe Alliance is an organization open to all students and staff of high school who want to foster an active and diverse culture at Robinson High School. Safe Alliance provides opportunities for students to build friendships, encourage open-mindedness and diversity among the student body and within the community, and to educate the student body and surrounding community of issues related to diversity. Safe Alliance is free from discrimination based on age, color, gender or gender identification, disability, marital status, national origin or ancestry, parental status, race, religion, sex (male or female), sexual orientation, and/or socioeconomic status.

SCHOLASTIC BOWL

Scholastic Bowl is a form of interscholastic academic competition. We have competition at both the Junior Varsity and Varsity levels. Our season begins in October and goes through May. Included are night matches and Saturday tournaments. A match consists of 25 toss up questions asked to 2 five member teams. Questions must be answered by an individual team member in 10 seconds or less. The first team that correctly answers the question is then given a bonus to do together in 25 seconds. Questions are from all academic areas as well as vocational and sports. A student needs to have a grade average of B and be willing to practice at least twice a week to be a part of the team.

STUDENT SENATE

The purpose of this organization shall be to provide student communication with the administration and faculty; to aid in coordination of all student functions and extra-curricular activities; to encourage and promote a stronger school spirit; to encourage respect for high scholastic attainment; and further the general welfare of this school. The Student Senate shall consist of the elected Student Senate officers, the four (4) elected class presidents, and eight (8) representatives from each class.
